

I'm writing to ask you to reconsider the LPFM, as a person who supports and listens to 91.3 KLOVE in San Antonio, I feel that if this is allowed, the community would lose an important asset in our community. KLOVE has helped my family to keep informed of events that the regular new medium doesn't cover. Their music is appropriate for all ages and I know that anyone can listen to them without fear of being offended by sex, drugs, sex, cussing or other things I don't agree with. Please keep KLOVE and other stations like this on the air. Thank you for your time.

Roger Smith
